

CHETANYA KUMAR

AI Engineer & Full-Stack Developer

chetanyakumar753@gmail.com | +91 82736 36942 | <https://github.com/chetanyakumar> | [linkedin.com/in/chetanya-kumar](https://www.linkedin.com/in/chetanya-kumar) | Mathura, India

PROFESSIONAL SUMMARY

AI Engineer and Full-Stack Developer with a track record of building scalable RESTful architectures and data-intensive applications. Deepening expertise in GenAI, specifically in architecting RAG pipelines, LLM fine-tuning, and vector database integration. Strong proficiency in Python and Node.js, with a focus on bridging high-performance web backends with intelligent, LLM-powered data retrieval systems.

TECHNICAL SKILLS

- AI & Data Engineering:** Python (OOP, Async), LLM API Integration (OpenAI/Gemini/Groq), RAG Pipelines, Prompt Engineering, Vector Databases (ChromaDB, FAISS).
- Backend & Infrastructure:** FastAPI, Node.js, Express.js, RESTful Architecture, MongoDB, MySQL, Git, Docker (Beginner).
- Frontend (Foundational):** React.js, JavaScript (ES6+), Tailwind CSS, Responsive UI Design.

EXPERIENCE

Freelance Web Developer | Remote | Jan 2025 – Present

- Architected and deployed full-stack web applications using React.js and Node.js, focusing on high-performance API integration and data handling.
- Automated content workflows by integrating third-party REST APIs, reducing manual data processing overhead by ~20%.
- Designed scalable database schemas (MongoDB/MySQL) and managed full-stack deployment, ensuring production-ready reliability.
- Maintained version control via Git/GitHub, ensuring seamless CI/CD for all delivered applications.

PROJECTS

ResumeForge AI — Python, FastAPI, React.js, MongoDB, OpenAI/Gemini/Groq APIs, JWT, Tailwind CSS

- Developed an AI-driven resume generation platform for automated tailoring against job descriptions.
- Built an ATS-focused scoring engine using GenAI for actionable candidate optimization feedback.
- Architected a scalable full-stack solution with multi-LLM (OpenAI, Gemini, Groq) integration.
- Implemented JWT authentication and resume history tracking with a responsive frontend.

Ear Biometric Authentication System — Python, PyTorch, ResNet50, ArcFace, Siamese Network, OpenCV

- Developed a deep learning-based ear biometric verification system using computer vision.
- Leveraged transfer learning with ResNet50 to extract features and improve model generalization.
- Implemented ArcFace embeddings and Siamese networks for enhanced similarity analysis.
- Evaluated performance using ROC-AUC, FAR, FRR, EER, Precision, Recall, and F1-Score.

Hotel Management System — Node.js, Express, MySQL, REST API

- Engineered a scalable hotel management application with JWT authentication and RBAC.
- Optimized MySQL schema normalization, improving query performance and data efficiency by 30%.
- Streamlined REST API integration to manage 100+ concurrent records with zero downtime.

EDUCATION

Bachelor of Computer Applications (BCA) | GLA University, Mathura | 2024 – 2027

Relevant Coursework: Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, Software Engineering.

CERTIFICATIONS

- HackerRank — Problem Solving (Basic)
- freeCodeCamp — Responsive Web Design
- NPTEL — Introduction to Programming in Python (Ongoing)
